

DETERMINATION OF NONSIGNIFICANCE

Description of proposal: An ordinance to amend BCC 11.16A.030. Relating to adopting a zoning amendment to prohibit the production of marijuana in the Rural Lands Five Acre District; amending Ordinance 488, Section 4 and BCC 11.16.030.

Proponent Benton County Planning Department
P.O. Box 910
Prosser WA 99350

File No. **EA 2015-020**

Location of proposal, including street address, if any: The proposed amendments are development regulations that will apply to applications for Comprehensive Plan Amendments of industrial purposes only within a City's Urban Growth Area.

Lead agency **BENTON COUNTY**

The lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.030(2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information is available to the public on request.

This DNS is issued under WAC197-11-340(2); the lead agency will not act on this proposal for 14 days from the date below. Comments must be submitted by August 24, 2015.

Responsible Official

Michael Shuttleworth, Planning Manager
Benton County Planning Dept.

ENVIRONMENTAL CHECKLIST

A. BACKGROUND

1. Name of proposed project, if applicable:
An ordinance to amend BCC 11.16A.030 to prohibit the production of marijuana in the Rural Lands Five Acre District; amending Ordinance 488, Section 4 and BCC 11.16A.030.
2. Name of applicant:
Benton County
3. Address and phone number of applicant and contact person:
Clark A. Posey, Assistant Planning Manager
Benton County Planning Department
P.O. Box 910
Prosser, WA 99350 (509) 786-5612 or (509) 736-3086
4. Date checklist prepared:
August 7, 2015
5. Agency requesting checklist:
Benton County
6. Proposed timing or schedule (including phasing, if applicable):
Public Hearing with Planning Commission scheduled for September, 2015 and Board of County Commissioners in October 2015
7. Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal?
Non project action
8. List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal.
None
9. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain.
None
10. List any government approvals or permits that will be needed for your proposal, if known.
The approval of the ordinance amendments completed by the Board of County Commissioners.
11. Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.)

The purpose of this zoning ordinance is to prohibit the production of marijuana in the Rural Lands Five Acre District.

12. Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.

The proposed amendment is a regulation that will apply to those areas within the Rural Lands 5 Zoning Districts.

B. ENVIRONMENTAL ELEMENTS

1. Earth

- a. General description of the site (circle one): Flat, rolling, hilly, steep slopes, mountainous, other:
Not applicable, this is not a site-specific project.
- b. What is the steepest slope on the site (approximate percent slope)?
Not applicable, this is not a site-specific project.
- c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any prime farmland.
Not applicable, this is not a site-specific project.
- d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.
Not applicable, this is not a site-specific project.
- e. Describe the purpose, type, and approximate quantities of any filling or grading proposed. Indicate source of fill.
Not applicable, this is not a site-specific project.
- f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe.
Not applicable, this is not a site-specific project.
- g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)?
Not applicable, this is not a site-specific project.
- h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any:
Not applicable, this is not a site-specific project.

2. Air

- a. What types of emissions to the air would result from the proposal (i.e., dust, automobile,

odors, industrial, wood smoke) during construction and when the project is completed? If any, generally describe and give approximate quantities if know.

Not applicable, this is not a site-specific project.

- b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe.

Not applicable, this is not a site-specific project.

- c. Proposed measures to reduce or control emissions or other impacts to air, if any:

Not applicable, this is not a site-specific project

3. **Water**

a. Surface:

- 1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

Not applicable, this is not a site-specific project.

- 2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.

Not applicable, this is not a site-specific project.

- 3) Estimate the amount of fill and dredge material that would be placed in or removed from surface water, or wetlands, and indicate the area of the site that would be affected. Indicate the source of fill material.

Not applicable, this is not a site-specific project.

- 4) Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if know.

Not applicable, this is not a site-specific project.

- 5) Does the proposal lie within a 100-year floodplain? If so, note location on the site plan.

Not applicable, this is not a site-specific project.

- 6) Does the proposal involve any discharge of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.

Not applicable, this is not a site-specific project.

b. Ground:

- 1) Will ground water be withdrawn, or will water be discharge to ground water? Give general description, purpose, and approximate quantities if know.

Not applicable, this is not a site-specific project

- 2) Describe waster material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage, industrial, containing the following chemicals . . . agricultural, etc.). Describe the general size of the system, the number of such systems, the number of houses to be served (if

applicable), or the number of animals or humans the system(s) are expected to serve.

Not applicable, this is not a site-specific project.

c. Water Runoff (including storm water):

1) Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.

Not applicable, this is not a site-specific project.

2) Could waste materials enter ground or surface waters? If so, generally describe.

Not applicable, this is not a site-specific project.

d. Proposed measures to reduce or control surface, ground, and runoff water impacts, if any:

Not applicable, this is not a site-specific project.

4. **Plants**

a. Circle types of vegetation found on the site: deciduous tree: alder, maple, aspen, other; evergreen tree: fir, cedar, pine, other; shrubs; grass; pasture' crop or grain; wet soil plants: cattail, buttercup, bulrush, skunk cabbage, other; water plants: water lily, eelgrass, milfoil, other; other types of vegetation.

Not applicable, this is not a site-specific project

b. What kind and amount of vegetation will be removed or altered?

Not applicable, this is not a site-specific project.

c. List threatened or endangered species known to be on or near the site.

Not applicable, this is not a site-specific project.

d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any:

Not applicable, this is not a site-specific project.

5. **Animals**

a. Circle any birds and animals which have been observed on or near the site or are known to be on or near the site: Birds: hawk, heron, eagle, songbirds, other:

Mammals: deer, bear, elk, beaver, other:

Fish: bass, salmon, trout, herring, shellfish, other:

Not applicable, this is not a site-specific project.

b. List any threatened or endangered species known to be on or near the site.

Not applicable, this is not a site-specific project.

c. Is the site part of a migration route? If so, explain.

Not applicable, this is not a site-specific project.

d. Proposed measures to preserve or enhance wildlife, if any:

Not applicable, this is not a site-specific project.

6. Energy and Natural Resources

- a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.

Not applicable, this is not a site-specific project.

- b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe.

Not applicable, this is not a site-specific project.

- c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any:

Not applicable, this is not a site-specific project.

7. Environmental Health

- a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste, which could occur as a result of this proposal? If so, describe.

Not applicable, this is not a site-specific project.

- 1) Describe special emergency services that might be required.

Not applicable, this is not a site-specific project.

- 2) Proposed measures to reduce or control environmental health hazards, if any:

Not applicable, this is not a site-specific project.

b. Noise

- 1) What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)?

Not applicable, this is not a site-specific project.

- 2) What types and levels of noise would be created by or associate with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site.

Not applicable, this is not a site-specific project.

- 3) Proposed measures to reduce or control noise impacts, if any:

Not applicable, this is not a site-specific project.

8. Land and Shoreline Use

- a. What is the current use of the site and adjacent properties?

Not applicable, this is not a site-specific project.

- b. Has the site been used for agriculture? If so, describe.

Not applicable, this is not a site-specific project.

- c. Describe any structures on the site.
Not applicable, this is not a site-specific project.
 - d. Will any structures be demolished? If so, what?
Not applicable, this is not a site-specific project.
 - e. What is the current zoning classification of the site?
This interim ordinance will apply to those areas zoned Rural Land 5.
 - f. What is the current comprehensive plan designation for the site?
This interim ordinance will apply to those areas designated Rural Land 5..
 - g. If applicable, what is the current shoreline master program designation of the site?
Not applicable, this is not a site-specific project.
 - h. Has any part of the site been classified as an "environmentally sensitive" area? If so, specify.
Not applicable, this is not a site-specific project.
 - i. Approximately how many people would reside or work in the completed project?
Not applicable, this is not a site-specific project.
 - j. Approximately how many people would the completed project displace?
Not applicable, this is not a site-specific project.
 - k. Proposed measures to avoid or reduce displacement impacts, if any:
Not applicable, this is not a site-specific project.
 - l. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any:
The regulations is consistent with the Benton County Comprehensive Plan policies and guidelines.
9. **Housing**
- a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing.
None
 - b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.
None
 - c. Proposed measures to reduce or control housing impacts, if any:
Not applicable, this is not a site-specific project.
10. **Aesthetics**
- a. What is the tallest height of any proposed structures(s) not including antennas; what is the principal exterior building material(s) proposed?

Not applicable, this is not a site-specific project.

- b. What views in the immediate vicinity would be altered or obstructed?
Not applicable, this is not a site-specific project.

- c. Proposed measures to reduce or control aesthetic impacts, if any:
Not applicable, this is not a site-specific project.

11. **Lights and Glare**

- a. What type of light or glare will be the proposal produce? What time of day would it mainly occur?

Not applicable, this is not a site-specific project.

- b. Could light or glare from the finished project be a safety hazard or interfere with views?
Not applicable, this is not a site-specific project.

- c. What existing off-site sources of light or glare may affect your proposal?
Not applicable, this is not a site-specific project.

- d. Proposed measures to reduce or control light and glare impacts, if any:
Not applicable, this is not a site-specific project.

12. **Recreation**

- a. What designated and informal recreational opportunities are in the immediate vicinity?
Not applicable, this is not a site-specific project.

- b. Would the proposed project displace any existing recreational uses? If so, describe.
Not applicable, this is not a site-specific project.

- c. Proposed measures to reduce or control impacts or recreation, including recreation opportunities to be provided by the project or applicant, if any:
Not applicable, this is not a site-specific project.

13. **Historic and Cultural Preservation**

- a. Are there any places or objects listed on, or proposed for, national, state, or local preservation registers known to be on or next to the site? If so, generally describe.
Not applicable, this is not a site-specific project.

- b. Generally describe any landmarks or evidence of historic, archeological, scientific, or cultural importance known to be on or next to the site.
Not applicable, this is not a site-specific project.

- c. Proposed measures to reduce or control impacts, if any:
Not applicable, this is not a site-specific project.

14. **Transportation**

- a. Identify public streets and highways serving the site, and describe proposed access to

the existing street system. Show on site plan, if any.
Not applicable, this is not a site-specific project.

- b. Is the site currently served by public transit? If not, what is the approximate distance to the nearest transit stop?
Not applicable, this is not a site-specific project.
- c. How many parking spaces would the completed project have? How many would the project eliminate?
Not applicable, this is not a site-specific project.
- d. Will the proposal require any new roads or streets, or improvements to existing roads or streets, not including driveways? If so, generally describe (indicate whether public or private).
Not applicable, this is not a site-specific project.
- e. Will the project use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe.
Not applicable, this is not a site-specific project.
- f. How many vehicular trips per day would be generated by the completed project? If know, indicate when peak volumes would occur.
Not applicable, this is not a site-specific project.
- g. Proposed measures to reduce or control transportation impacts, if any:
Not applicable, this is not a site-specific project.

15. **Public Services**

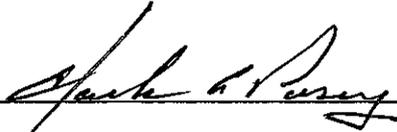

- a. Would the project result in an increased need for public services (for example, fire protection, police protection, health care, schools, etc.)? If so, generally describe.
Not applicable, this is not a site-specific project.
- b. Proposed measures to reduce or control direct impacts on public services, if any.
Not applicable, this is not a site-specific project.

16. **Utilities**

- a. Circle utilities currently available at the site: electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system, other.
Not applicable, this is not a site-specific project.
- b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed.
Not applicable, this is not a site-specific project.

C. **SIGNATURE**

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

Signature:  _____

Print Name: Clark A. Posey, Assistant Planning Manager
Benton County Planning Department

Date Submitted: August 7, 2015

D. SUPPLEMENTAL SHEET FOR NON-PROJECT ACTIONS
(do not use this sheet for project actions)

Because these questions are very general, it may be helpful to read them in conjunction with the list of the elements of the environment.

When answering these questions, be aware of the extent the proposal, or the types of activities likely to result from the proposal would affect the item at a greater intensity or at a faster rate than if the proposal were not implemented. Respond briefly and in general terms.

1. How would the proposal be likely to increase discharge to water; emissions to air; production, storage, or release of toxic or hazardous substances; or production of noise?
Not applicable, this is not a site-specific project.

Proposed measures to avoid or reduce such increases are:

None.

2. How would the proposal be likely to affect plants, animals, fish or marine life?
Not applicable, this is not a site-specific project.

Proposed measures to protect or conserve plants, animals, fish or marine life are:

None.

3. How would the proposal be likely to deplete energy or natural resources?
Not applicable, this is not a site-specific project.

Proposed measures to protect or conserve energy and natural resources are:

None.

4. How would the proposal be likely to use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection; such as parks, wilderness, wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, flood plains, or prime farmlands?
Not applicable, this is not a site-specific project.

Proposed measures to protect such resources or to avoid or reduce impacts are:

None.

5. How would the proposal be likely to affect land and shoreline use, including whether it would allow or encourage land or shoreline uses incompatible with existing plans?
Not applicable, this is not a site-specific project.

Proposed measures to avoid or reduce shoreline and land use impacts are:

Not applicable, this is not a site-specific project.

6. How would the proposal be likely to increase demands on transportation or public services and utilities?
Not applicable, this is not a site-specific project.

Proposed measures to reduce or respond to such demands(s) are:

Not applicable, this is not a site-specific project.

7. Identify, if possible, whether the proposal may conflict with local, state or federal laws or requirements for the protection of the environment.

None.

ESA LISTED SALMONIDS CHECKLIST

The Listed Salmonids Checklist is provided in order that the county may initially identify a project's potential impacts (if any) on salmonids that have been listed as "threatened" or "endangered" under the Federal Endangered Species Act (ESA). A salmonid is any fish species that spends part of its life cycle in the ocean and returns to fresh water. Potential project impacts that may result in a "taking" of listed salmonids must be avoided, or mitigated to insignificant levels. Generally, under ESA, a "taking" is broadly defined as any action that causes the death of, or harm to, the listed species. Such actions include those that affect the environment in ways that interfere with or reduce the level of reproduction of the species.

If ESA listed species are present or ever were present in the watershed where your project will be located, your project has the potential for affecting them, and you need to comply with the ESA. The questions in this section will help determine if the ESA listing will impact your project. The Fish Program Manager at the appropriate Department of Fish and Wildlife (DFW) regional office can provide information for the following two questions. Please contact the Dept. of Fish and Wildlife at 1701 S. 24th, Yakima WA 98902-5720, Phone No. 509-575-2740.

1. Are ESA listed salmonids currently present in the watershed in which your project will be? YES___ NO___

Please Describe.

Not applicable, this is not a site-specific project.

2. Has there ever been an ESA listed salmonid stock present in this watershed? YES___ NO___

Please Describe.

Not applicable, this is not a site-specific project.

If you answered "yes" to either of the above questions, you should complete the remainder of this checklist.

PROJECT SPECIFIC: The questions in this section are specific to the project and vicinity.

A1. Name of watershed _____

A2. Name of nearest waterbody _____

A3. What is the distance from this project to the nearest body of water? _____

Often a buffer between the project and a stream can reduce the chance of a negative impact to fish.

A4. What is the current land use between the project and the potentially affected water body (parking lots, farmland, etc.)

A5. Is the project above a:
Natural permanent barrier (waterfall) YES___ NO___

Natural temporary barrier (beaver pond) YES _____ NO _____
 Man-made barrier (culvert, dam) YES _____ NO _____
 Other (explain)

A6 If yes, are there any resident salmonid populations above the blockage? YES _____
 NO _____ Don't Know _____

A7. What percentage of the project will be impervious surface (including pavement & roof area)?

FISH MIGRATION: The following questions will help determine if this project could interfere with migration of adult and juvenile fish. Both increases and decreases in water flows can affect fish migration.

B1. Does the project require the withdrawal of
 a. Surface water? Yes _____ No _____
 Amount _____
 Name of surface water body _____
 b. Ground water? Yes _____ No _____
 Amount _____
 From Where _____
 Depth of well _____

B2. Will any water be rerouted? YES _____ NO _____
 If yes, will this require a channel change?

B3. Will there be retention ponds? YES _____ NO _____
 If yes, will this be an infiltration pond or a surface discharge to either a municipal storm water system or a surface water body?

If to a surface water discharge, please give the name of the waterbody.

B4. Will this project require the building of new roads? Increased road mileage may affect the timing of water reaching a stream and may, thus, impact fish habitat.

B5. Are culverts proposed as part of this project?
 Yes _____ No _____

B6. Will topography changes affect the duration/direction of runoff flows?

Yes _____ No _____

If yes describe the changes.

- B7. Will the project involve any reduction of the floodway or floodplain by filling or other partial blockage of flows? Yes _____ No _____

If yes, how will the loss of flood storage be mitigated by your project?

WATER QUALITY: The following questions will help determine if this project could adversely impact water quality. Such impacts can cause problems for listed species. Water quality can be made worse by runoff from impervious surfaces, altering water temperature, discharging contaminants, etc.

- C1. Do you know of any problems with water quality in any of the streams within this watershed? YES _____ NO _____

If yes please describe.

- C2. Will your project either reduce or increase shade along or over a waterbody?
YES _____ NO _____ Removal of shading vegetation or the building of structures such as docks or floats often result in a change in shade.

- C3. Will the project increase nutrient loading or have the potential to increase nutrient loading or contaminants (fertilizers, other waste discharges, or runoff) to the waterbody?
YES _____ NO _____

- C4. Will turbidity be increased because of construction of the project or during operation of the project? In-water or near water work will often increase turbidity.
YES _____ NO _____

- C5. Will your project require long term maintenance, i.e., bridge cleaning, highway salting, chemical sprays for vegetation management, clearing of parking lots?
YES _____ NO _____
Please Describe.

Vegetation: The following questions are designed to determine if the project will affect riparian vegetation, thereby, adversely impacting salmon.

D1. Will the project involve the removal of any vegetation from the stream banks?
YES_____ NO_____

If yes, please describe the existing conditions and the amount and type of vegetation to be removed.

D2. If any vegetation is removed, do you plan to re-plant? YES_____ NO_____
If yes, what types of plants will you use?

ORDINANCE NO. _____

AN ORDINANCE relating to zoning; zoning amendment to prohibit the production of marijuana in the Rural Lands Five Acre District; amending Ordinance 488, Section 4 and BCC 11.16A.030.

NOW THEREFORE, BE IT ORDAINED BY THE BOARD OF COUNTY COMMISSIONERS OF BENTON COUNTY, WASHINGTON;

SECTION 1. Zoning. Ordinance 488, Section 4, and BCC 11.16A.030 are hereby amended to read as follows:

ALLOWABLE USES. Provided all applicable code provisions are satisfied, the following uses are allowed within the Rural Lands Five Acre District (RL-5) on a single parcel of record:

- (a) Single Family Dwelling (SFD).
- (b) Manufactured home if constructed after June 15, 1976.
- (c) Manufactured home placed in a manufactured home/FAS park.
- (d) Duplex.
- (e) One or more accessory buildings and uses commonly appurtenant to a single family dwelling.
- (f) Agricultural uses, except for commercial dairies, commercial hog ranches, commercial poultry/rabbit operations, ~~((and))~~ animal feedlots, and marijuana production (as each those terms is currently defined in RCW 69.50.101(t) and (gg), respectively); provided on any tract of land having an area of less than five (5) acres, agricultural uses may not include the keeping of more than one animal unit equivalent per one-half acre of ground, exclusive of suckling animals.
- (g) One or more agricultural buildings.
- (h) Agricultural stand.
- (i) Adult family home.
- (j) Crisis residential center.
- (k) Nursery/greenhouse.
- (l) Utility substation facility.
- (m) Yard sales occurring for no more than three (3) consecutive days on two (2) different occasions during a calendar year.
- (n) Kennel, private.
- (o) Fire department facility, law enforcement facility, and/or medical facility.
- (p) Wineries/Breweries; provided structures used as part of the operation of the winery/brewery collectively do not exceed three thousand (3,000) square feet in size.
- (q) Hiking and non-motorized biking trail.

(r) Equestrian trails.

(s) Church, provided structures used as part of the operation of the church collectively shall not exceed three thousand five hundred (3,500) square feet in size.

(t) No more than one (1) wind turbine and related support structures and other improvements per parcel for private use; provided:

(1) the wind turbine height must be less than sixty (60) feet;

(2) the wind turbine must be set back from all property lines a distance equal to one (1) foot for every foot in height of the wind turbine; and

(3) the wind turbine tower base shall be located at least forty (40) feet for every one (1) foot of tower height or one mile, whichever is greater, from the ends of and at least five thousand (5,000) feet from the sides of all aircraft runways which are identified on the most current edition of the Sectional Aeronautical Charts produced by the National Aeronautical Charting Office (NACO).

SECTION 2. Severability. If any provision of this Ordinance is declared unconstitutional, or the applicability thereof to any person or circumstance is held invalid, the constitutionality of the remainder of the Ordinance and the applicability thereof to other persons and circumstances shall not be affected thereby.

SECTION 3. Effective Date. This Ordinance shall take effect and be in full force upon its passage and adoption.

ADOPTED AND PASSED this _____ day of _____.

Chairman of the Board.

Chairman Pro-Tem.

Member.

Approved as to Form:

Constituting the Board of
County Commissioners of
Benton County, Washington

Deputy Prosecuting Attorney

Attest: _____
Clerk of the Board
