6504 N 10Th Pl.  
Phoenix, AZ. 85014  
Parcel No.: 1-1787-200-0000-000

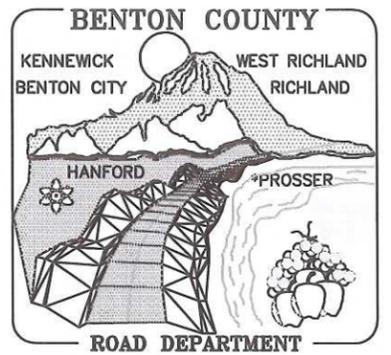

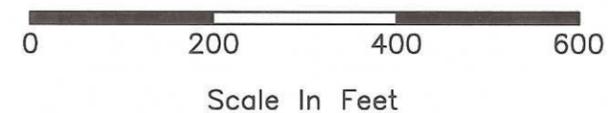

Upon completion of crushing move existing overburden from East side and place on West and South side slopes to achieve a slope of 2 horiz. to 1 vert. Cap slopes with existing overburden stockpiled on West side. When complete reshape haul road.

Notes:

- (1) C. Moore Quarry is located approx. 6 miles South of Benton City, Washington bordered on the East by Webber Canyon Road and on the South by County Well Road.
- (2) Material from stripping operations shall be salvaged and stockpiled in the designated areas and be utilized for reclamation of slopes.
- (3) This plan is for segmental development. C. Moore Quarry is the source for the production of surfacing materials for the construction and maintenance of surrounding County roads. Approx. 50,000 c.y. will be crushed at this time.
- (4) Permanent stockpiles will be located on site at the designated stockpile areas.
- (5) On completion of taking material from the site, no slopes in the newly completed segment will be left no steeper than (n.s.t.) 2:1, which will consist of blending the stripings into the surrounding area with stockpiled stripings. The site will be shaped and cleaned up.
- (6) Benton County has obtained a surfacing mining permit from the Department of Natural Resources. The Contractor shall follow the terms and conditions of the permit and the approved Reclamation Plan.
